

# SUMMER HOME MAINTENANCE

## Interior

- Reverse Ceiling Fans (ceiling fans should run counter clockwise in summer)
- Clean all ceiling and house fans, including bathroom vents
- Check and replace furnace filter
- Clear dust from refrigerator coils
- Wipe down your garbage disposal and run frozen vinegar cubes through the disposal to keep things smelling fresh
- Soak range hood filters in soapy hot water and wipe clean

## Outdoor

- Clean or Replace Window Screens
- Clean and inspect driveways, walkways, and patios
- Landscaping: Add mulch, as needed. Remove dead parts from plants and trees
- Clear gutters of leaves and debris. While you're up on the roof, inspect shingles for damage
- Examine your deck for loose nails and signs of rotting. Hammer loose nails, clean & reseal as needed
